MATERIAL SAFETY DATA SHEET

SECTION 1	PRODUCT AND COMPANY IDENTIFICATION		
Trade Name:	CARLON ELECTRICAL PRODUCTS ALL WEATHER QUICKSET CLEAR CEMENT		
Product Numbers:	VC9981P, VC9982, VC9983, VC9984, VC9983, VC9985C, VC9983C		
Product Use:	Cement for PVC Plastic Pipe		
Formula:	PVC Resin in Solvent Solution		
Synonyms:	PVC Plastic Pipe Cement		
Firm Name &	CARLON ELECTRICAL PRODUCTS c/o OATEY CO. 4700 West 160 th Street		
Mailing Address:	P.O. Box 35906 Cleveland, Ohio 44135, U.S.A.		
5	http://www.oatey.com		
Oatev Phone Number:	(216) 267-7100 or (800) 321-9532		
Emergency Phone	For Emergency First Aid call 1-303-623-5716 COLLECT. For		
Numbers:	chemical transportation emergencies ONLY, call Chemtrec at		
Nullber 5	1-800-424-9300. Outside the U.S. $1-703-527-3887$.		
Prepared By:	Corporate Director - Safety and Environmental Compliance		
Preparation Date:	August 25, 2005		
Preparation Date:	August 25, 2005		
SECTION 2	COMPOSITION/INFORMATION ON INGREDIENTS		
INGREDIENTS:	%wt/wt: CAS NUMBER: ACGIH TLV TWA: OSHA PEL TWA: OTHER:		
Tetrahydrofuran	40 - 55% 109-99-9 50 ppm(skin) 200 ppm 25 ppm (Mfg)		
recranyaroraran	100 ppm STEL		
PVC Resin	12 - 24% 9002-86-2 10 mg/m3 15 mg/m3 None		
	12 - 24% $3002 - 80 - 2$ 10 mg/ms 13 mg/ms None		
(Non-hazardous)			
Acetone	10 - 25% 67-64-1 500 ppm 1000 ppm None

Cyclohexanone	10 - 20% 108-94-1 20 ppm(skin) 50 ppm None		
	50 ppm STEL		

Amorphous Fumed Silica 1 - 5%112945-52-5 10 mg/m3None(Non-hazardous)EstablishedOSHA Hazard Classification:Flammable, irritant, organ effects

SECTION 3 HAZARDS IDENTIFICATION

or hospital.

Emergency Overview:

Clear liquid with an ether-like odor. Extremely flammable liquid and vapor. Vapors may cause flash fire. May cause eye and skin irritation. Inhalation of vapors or mist may cause respiratory irritation and central nervous system effects. Swallowing may cause irritation, nausea, vomiting, diarrhea and kidney or liver disorders. Aspiration hazard. May be fatal if swallowed. Symptoms may be delayed.

SECTION 4	FIRST AID MEASURES
Skin:	CALL 1-303-623-5716 COLLECT Remove contaminated clothing immediately. Wash all exposed areas with soap and water. Get medical attention if irritation develops. Remove
. .	dried cement with Oatey Plumber's Hand Cleaner or baby oil.
Eyes:	If material gets into eyes or if fumes cause irritation, immediately flush eyes with plenty of water until chemical is removed. If
	irritation persists, get medical attention immediately.
Inhalation:	If symptoms of exposure develop, remove to fresh air. If breathing
	becomes difficult, administer oxygen. Administer artificial
	respiration if breathing has stopped. Seek immediate medical attention.
Ingestion:	DO NOT INDUCE VOMITING. Rinse mouth with water. Never give anything
	by mouth to a person who is unconscious or drowsy. Get immediate
	medical attention by calling a Poison Control Center, or hospital
	emergency room. If medical advice cannot be obtained, then take the
	person and product to the nearest medical emergency treatment center
	person and product to the hearest medical emergency treatment center

MSDS No: CAR020C5 Issue Date: 25 Aug. 2005 Page: 2 of 5

SECTION 5 B	FIRE FIGHTING MEASURES
Flashpoint / Method:	0 - 5 Degrees F. (-1815 Degrees C / PMCC
Flammability:	LEL = 1.8 % Volume, UEL = 11.8 % Volume
Extinguishing	Use dry chemical, CO2, or foam to extinguish fire. Cool fire
Media:	exposed container with water. Water may be ineffective as an
	extinguishing agent.
Special Fire	Firefighters should wear positive pressure self-contained
Fighting	breathing apparatus and full protective clothing for fires in
Procedure:	areas where chemicals are used or stored
Unusual Fire and	Extremely flammable liquid. Keep away from heat and all
Explosion	sources of ignition including sparks, flames, lighted
Hazards:	cigarettes and pilot lights. Containers may rupture or
	explode in the heat of a fire. Vapors are heavier than air
	and may travel to a remote ignition source and flash back.
	This product contains tetrahydrofuran that may form explosive
	organic peroxide when exposed to air or light or with age.
Hazardous	Combustion will produce toxic and irritating vapors including
Decomposition	carbon monoxide, carbon dioxide and hydrogen chloride.
Products:	

SECTION 6 ACCIDENTAL RELEASE MEASURES
Spill or
Leak Semove all sources of ignition and ventilate area. Stop leak if it
can be done without risk. Personnel cleaning up the spill should
Procedures: wear appropriate personal protective equipment, including respirators
if vapor concentrations are high. Soak up spill with an inert
absorbent such as sand, earth or other non-combusting material. Put
absorbent material in covered, labeled metal containers. Prevent
liquid from entering watercourses, sewers and natural waterways.

disposal information.

SECTION 7 HANDLING AND STORAGE

Handling: Avoid contact with eyes, skin and clothing. Avoid breathing vapors or mists. Use with adequate ventilation (equivalent to outdoors). Wash thoroughly after handling. Do not eat, drink or smoke in the work area. Keep product away from heat, sparks, flames and all other sources of ignition. No smoking in storage or use areas. Keep containers closed when not in use.

Report releases to authorities as required. See Section 13 for

- Storage: Store in a cool, dry, well-ventilated area away from incompatible materials. Keep containers closed when not in use.
- Other: "Empty" containers retain product residue and can be hazardous. Follow all MSDS precautions in handling empty containers. Do not cut or weld on or near empty or full containers.

SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

- Ventilation: Open doors & windows. Provide ventilation capable of maintaining emissions at the point of use below recommended exposure limits. If used in enclosed area, use exhaust fans. Exhaust fans should be explosion-proof or set up in a way that flammable concentrations of solvent vapors are not exposed to electrical fixtures or hot surfaces.
- Respiratory For operations where the exposure limit may be exceeded, a NIOSH Protection: approved organic vapor respirator or supplied air respirator is recommended. Equipment selection depends on contaminant type and concentration, select in accordance with 29 CFR 1910.134 and good industrial hygiene practice. For firefighting, use self-contained breathing apparatus.
- SkinRubber gloves are suitable for normal use of the product. For longProtection:exposures chemical resistant gloves may be required such as
4H(tm) or Silver Shield(tm) to avoid prolonged skin contact.

SECTION 11 (Continued)

Sensitization: Carcinogenicity:	None of the components are known to cause sensitization. None of the components are listed as a carcinogen or suspect carcinogen by NTP, IARC or OSHA. The National Toxicology Program has reported that exposure of mice and rats to tetrahydrofuran (THF) vapor levels up to 1800 ppm 6 hr/day, 5 days/week for their lifetime caused an increased incidence of kidney tumors in male rats and liver tumors in female mice. The significance of these findings for human health is unclear at this time, and may be related to "species specific" effects. Elevated incidences of tumors in humans have not been reported for THF. ACGIH has classified cyclohexanone (CYH) and tetrahydrofuran as "A3," Confirmed Animal Carcinogens with Unknown Relevance to Humans.
Mutagenicity:	Cyclohexanone has been positive in bacterial and mammalian assays. Acetone and tetrahydrofuran are generally thought not to be mutagenic.
Reproductive	Cyclohexanone has been shown to cause embryofetal toxicity and
Toxicity:	birth defects in laboratory animals.
	Acetone and tetrahydrofuran have been found to cause adverse developmental effects only when exposure levels cause other toxic effects to the mother.
Medical	Persons with pre-existing skin, lung, kidney or liver disorders
Conditions	may be at increased risk from exposure to this product.
Aggravated By	
Exposure:	
SECTION 12	ECOLOGICAL INFORMATION

	This product is not expected to be toxic to aquatic organisms.
	Cyclohexanone: 96 hour LC50 values for fish is over 100 mg/l.
	Tetrahydrofuran: 96 hour LC50 fathead minnow: 2160 mg/L.
	Acetone: 96 hour LC50 for fish is greater than 100 mg/L.
VOC	This product emits VOC's (volatile organic compounds) in its use.
Information:	Make sure that use of this product complies with local VOC emission
	regulations, where they exist.
VOC Level:	600 g/l per SCAQMD Test Method 316A.

SECTION 13 DISPOSAL CONSIDERATIONS

Waste Disposal: Dispose in accordance with current local, state and federal regulations. RCRA Hazardous Waste Number: U002, U057, U213

EPA Hazardous Waste ID Number: D001, F003 EPA Hazard Waste Class: Ignitable Waste.

MSDS No: CAR020C5 Issue Date: 25 Aug. 2005 Page: 5 of 5
